

New Source Review newspaper advertisements for construction permit applications, June 2, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: June 1 or June 2, 2005. Public notices are generally published every two weeks. The previous publication of public notices was May 17 – 19, 2005.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain air contaminant permits for construction of air contaminant sources at 3990 Little Dry Creek Road, Pulaski, TN 38478, as follows:

(1) Rock Quarry and Rock Crushing Operation (Division identification number: 28-0093-04/58243). This proposed operation would consist of rock crushers, screens, conveyors, and associated equipment used to produce crushed rock. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

(2) Generator (Division identification number: 28-0093-05/58241). This proposed operation would consist of a large stationary diesel engine used to drive a generator that would supply power for the rock crushing operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

(3) Generator (Division identification number: 28-0093-06/58242). This proposed operation would consist of a stationary diesel engine used to drive a generator that would supply power for the rock quarry operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Giles County “Pulaski Citizen”--published once on or before Thursday, June 2, 2005.

The applicant is Vestal Manufacturing Enterprises, Inc. with a mailing address of P.O. Box 420, Sweetwater, TN 37874. They seek to obtain an air contaminant permit (Division identification number: 62-0016-00/58200) for modification of a Gray Iron Foundry located at 177 Industrial Park Road, Sweetwater, TN 37874. This existing facility consists of a flow coating operation, mold and core production, a gray iron foundry, three (3) coreless induction furnaces, one (1) channel induction furnace, a washer operation, and a foundry dip coating operation. The requested modifications are to combine Volatile Organic Compound (VOC) emissions in accordance with Division Rule 1200-3-9-.02(11)(a) and to eliminate the spray coating and dip tank operations. A baghouse is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. It should be noted that Vestal Manufacturing Enterprises, Inc. currently holds an air contaminant permit and there will be no increase in allowable pollutant limits. Mr. David S. Gosslee is the assigned Division person.

For the "Monroe County Advocate"--published once on or before Thursday, June 2, 2005.

The applicant is James Franklin with a mailing address of 3961 Lebanon Road, Lebanon, TN 37087. They seek to obtain an air contaminant permit (Division identification number: 95-0186-01/57768) for construction of a Gasoline Dispensing Facility - Franklin's Market at 3961 Lebanon Road, Lebanon, TN 37087. This proposed operation would consist of one (1) 6,000-gallon gasoline tank, one (1) 8,000-gallon gasoline tank and six (6) gasoline-dispensing nozzles with Stage I and Stage II vapor recovery equipment for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. G. Gatlin is the assigned Division person.
